ARTIST'S BIOGRAPHY:

Frank Milo

Born in Montreal in 1971, Frank Milo studied interior design, landscape architect, and web design. His mixed media paintings combine vibrant, dynamic colours that generate excitement and emotion with minimal Zen-like imagery.

Frank Milo

Up to 50 coats of clear varnish are applied to each piece. He also applies layers and layers of acrylic and oil paints combined with a variety of other materials . Frank Milo wants people to see his work that transmit the emotion that he feels and plays with them .

"In depth, that is how I wanted people to see my work.

Layers after layers my paintings come to life. Nothing ever goes, all is sealed to transmit the emotions that I felt when I was to play with them. The thick varnish works to bring you an unequal transparency, that will bring you back from the very first layer to the very last layer of my feelings. It's a reflection of and onto yourself.

Once upon a time there was a man called Narcisse. Maybe he wasn't looking at himself.....Maybe like you, he fell in love with something past his reflection. This is a different version of reflection, mine from them, yours from now on."

— Frank Milo
